

## Breakfast Around the World Activity

- Students select a country.
- Students research the traditional breakfast of their chosen country.
- Students list the foods eaten at breakfast in their chosen country.
- Students create a timeline or chart to show the sources of breakfast.
  - For example: If tofu is chosen, create a timeline of where it comes from...growing the soybean, processing it, packaging it, sending it to the store, even how one would prepare it in the kitchen.
- Students present what they learned.
